

Home Energy Saving Scheme

Danfoss

Heating Control Packs to meet all regulations at a competitive Price

Wireless Thermostats are the quickest and cleanest way to retrofit Heating Controls. No need to upset décor or lift floorboards. Wiring is limited to the Hot Press and/or Boiler

The Home Energy Saving Scheme from SEI gives up to €500 grant aid towards installing effective Heating Controls.

Danfoss have Heating Control Packs containing exactly the right components to satisfy SEI requirements and reduce homeowners energy bills. See [Wireless and Hard Wired Packs below](#)

- Hot Water without Heating
- Heating without Hot Water
- Or ... Heating and Hot Water
